NEW YORK, October 15.—In the house of deputies of the Protestant Episcopal convention to-day the committee on constitutional amendments repeted on a resolution previously offered, proposing to change the periods of meetings of the convention from three to five years. The report was adopted and the committee discharged.

The committee on prayer-books having conidered the memorial on the revision of the book of homities referred to them, reported adversely to the petition and were discharged.

Rev. Dr. Buel, of North Carolina, called up the resolution which originated at the previous convention. calling for the insertion in the litany after the supplication—"That it may please there to the supplication of the resolution, and the subject was the referred at least the resolution, and the subject was allowed the resolution, and the subject was allowed to the memorial presented by the committee on prayer-to the memorial presented by the committee on the subject was allowed to the teach of the subject was allowed to the canons inexpedient was adopted.

A resolution declaring such addition to the canons inexpedient was adopted.

The ranklin's resolution of Wednesday last, relating to the canon forbidding the marriage of divorced persons, which was referred to the committee on canons, we reported back adversely and the report adopted by a large majority.

At the afternoon session Rev Dr. McCrady of South Carolina, offered a resolution that the third supplication in the litany be changed to read, "of food the Holy whost, the Comforter have mercy upon us," also that the no end to the introduction of bills but about one in every seventy-five was ever heard of again. He didn't believe in introducing bills without some hope of getting them passed. He was always ready to introduce a bill and do all in his power to secure its passage when he was satisfied that it would benefit the country. But he did not believe in introducing bills to tickle his constituents and to make a little cheap reputation in his district, when he knew there was not the slightest hope of getting them through. Messrs, Hulsey and Dismuke also objected that he had not made speeches enough. He thought that he had spoken as often as was necessary. He believed in the maxim. "Speech

He thought that he had spoken as often as was necessary. He believed in the maxim, "Speech is silver, but silence is golden." He had tried to act upon that maxim. He did not think it just to his constituents and to the democracy to speak simply to make speeches. It was bad policy. He believed, however, in prudent speeches when the it was the duty of all democrats to see to it that its organization is kept intact. He asked the committee on canons

Mr. Hammond was frequently applauded. We regret that want of space precludes a fuller report of his fine speech.

Mr. Barry now introduced Senator Hill, who was received with prolonged cheering. Mr. Hill began by saying that he couldn't see any reason why a democray should vote against Mr. Hammond, and democray should be governed by reason. He knew of what he spoke when he saidington as one of the very ablest men in congress. He couldn't see for the life of him why Messrs. Huisey and Dismuke, independent, should run against him, insamuch as he was not only not put before the people by any clique or ring, but had been nominated by acclamatin. While Messrs. Huisey and Dismuke were his personal friends, he thought, under the circumstances they should retire from the race.

First proposition—The republican party has never had a popular majority in this country. This was established by a most interesting review of the history of that party. The democratic party goes into this national light with better advantages than ever before. There are now no returning boards in this country. The democratic party show the party have put forward one of the base men in it as a candidate for the presidency to count, and they will exercise these rights. The party have put forward one of the base men in it as a candidate for the presidency to the supremacy of the cityl over the military power, and acted upon that admission. In Virginia the Mahone party, it is said, are quite favorable to an alliance with the republicans, and will probably at least consider grepublicans, and will probably at least consider any propositions of fusion which may be made in Florida the republicans claim that there is a show of carrying the state, and in North Carolina and Louisiana they say a stormy fight will at least hold their party better together and probably give them some congressmen, if they do not carry the state. General Grant has manifested so warm an interest in the campaign that there is hope that he may be induced to visit Louisiana and make one or two speeches. In uisiana and make one or two speeches. hart. Before Mr. Rhinehart began his testi-mony, Solicitor Hill told him that he was intro-duced as a witness against C. P. McCalla, charged with forgery, and that he himself was supposed to

be an accomplice of the said McCalla, and that he must bear in mind that anythin he said could be used as evidence against him. Rninehart then began his stat ment by saying that he knew C. P. McCalla and J. B. Walker. He had known Walker for quite a while and was quite intimate with him. One evening he met me and asked me to walk home with him. I did so On our way he showed me a pa-per like these (holding one of the bogus applications in his hand) and said that he had made a hundred dollars out of it and asked me if I didn't want to go in with him and make more, at the same time explaining the matter to me fully. I told him that I was afraid that we would e caught up with, but he said if we worked it all right there would be no danger. I finally de-clined to have anything to do with it. Several times afterwards he spoke to me

argued by the counsel on both sides and at a late hour last night submitted to the jury, who after a short consultation brought in a verdict of guilty. Sentence was suspended until to-day, when McCalla will know what he is worth to the state as a laborer. It is said that a motion for a new trial will be submitted by his counsel. Rhinehart, whose testimony is generally believed, was released lass night upon a \$2.000 bond, while Walker was taken to jail.

During a conversation with a Construction reporter yesterday, Walker said that he was innocent and that Rhinebart was only taking this method to escape. He also said that he knew nathing about the charges. He stated that he had received a letter enclosing two of these applications and a power of attorney made to Colonei Glenn. He knew one of the applicants, but did not know the other. After Colonei Glenn had collected the money, he received it from him and paid a portion to one claimant himself and the rest to McCalla, who presented as order for it. He say, the property that he proved the claimants, but don't know what has become of the order McCalla gave him.

Rhinehar's story leaves Walker in an unenviable position and has secured the conviction of McCalla.

There is no doubt that the coming fair will be a grand success, and that its several features will be full and interesting. Mr. Wrenn has used great energy and skill in advertising the show and drumming up the display, and to his efforts more than anything else will the success of the fair be due. The truth is, he is incomparable in his position as secretary—as in everything else he undertakes.

A New Bust and Smut Preventive.
Yesterday a reporter of THE CONSTITUTION dropped into conversation with Mr. A. J. Gold smith, one of the most successful and extensive iarmers in DeKalb county, and was well enterstained for some minutes by that gentleman with the details of the discovery and successful use of a new preventive for rust and smut in wheat. The secret was discovered by Mr. Goldsmith several years ago, and has been thoroughly tested. He has formed a copartnership with Major H. L. Spencer, of Social Circle, and together they will or anulacture it under the name of "Spencer & Goldsmith's Rust and Smut Preventive for Wheat." Mr. Goldsmith will be in attendance at the fair next week, and will take pleasure in explaining the meris of the preparation to the larmers. We commend him to the public as a gentleman of intelligence, in every way worthy of esteem and confidence. A New Rust and Smut Preventive.

ATLANTA, GA., OCTOBER 16. 1880.

WEST VIRGINIA stands steadfast in the hour of defeat. Her democratic majority is well maintained, and her legislatur will send up a democratic senator to succeed Senator Hereford.

GOVERNOR-ELECT PORTER, Ben Harrison, the famous Orth and ex-Treasure New are now canvassing the new Indiana legislature for the senatorship. Ben Harrison is supposed to have the lead, but he is not strong enough to stand up against the combinations that his rivals will be apt to make.

THE republican national executive simply means that a lot of political bummers will line their pockets with money entributed by northern millionaires Just this and nothing more.

THE republicans have elected eight ou of Indiana's thirteen congressmen, and are trying to count in one more. The doubtful district is the fifth, where Benjamin F. Treat was the democratic and C. C. Matson the republican, candidate. If the republicans gain the fifth district, their net gains thus far will be ton seats. If they gain another seat, they will control the next house. The people of Georgia should not forget this

people of Georgia should not forget this fact.

The loss of a majority on joint ballot in the Indiana legislature, and the consequent defeat of Senator McDonald constitute the most unpleasant feature of the Indiana campaign. The Indiana disaster is not as bad as it might have been. The adverse majority will not exceed 6,000, and a change of three thousand five hundred in November will transfer the state to the democracy. Intelligent observers say that such a change is inevitable, as the circumstances next month will be favorable to the democracy. The republican pressure will to a great extent be lifted, and the crowd of detectives and deputy marshals that dominated the polls last Tuesday will not be on hand next time. October settles the question. The country wants no change. Least of all does it want the change proposed. Thirty-five millions are not ing to lay down their power and invite fifteen millions to rule over them. The solid south is met by the solid north, and the party that saved the nation will continue to rule it.

New York 1911, 110.

Can Hancock carry the state of New York? It was for Tilden four years ago by a majority of 33,00; and varfield is a weaker candidate than Hayes was. We might enlarge the Hancock column by adding to it the votes of states like New Jersey and Connecticut, and probably states like Illinois, California, and Oregon, not to speak of possible states like Maine and Pennsylvania,

New York Evening Post, dem.

Both in Ohlo and Indians the democrats suffered to some extent by having for candidates men who did not poli the entire democratic vote. The party is stronger than the candidates. The republicans were perfectly organized. Their candidates got the full party vote. They also secured a large part of the greenback vote. But Garfield is less popular in both states than the local republican ticket, while Hancock is more popular than the democratic ticket, and will poll a much larger vote than either.

New Haven Register, dem.

It now behoves the democrats of Connecticut to get ready for the November fray. They can carry the state easily, but they must not be over confident. If they go to work, under the inspiration of the news from the west, with earnestness, zeal and discretion, they can carry Connecticut by 5,000 majority next month. This we expect to see them do. Lay aside all factional fee logs, all prejudice, all jesiousles. and let us, working unitedly and harmoniously, roll up a rousing majority for Hancock next month. MACON, GEORGIA, July 1, '79. I have used Shoenfeld's Improved Stoc I have used Shoenfeld's Improved Stock Feed on my horses with the best results. I had one horse turned over to me for which the owner would have taken \$25, and after treating him with Stock Feed for two weeks, I consider h'm worth \$150. My wife has tried it also on her Chickens which were dying rapidly with Cholera, and she did not lose one after giving the first dose.

SAMUEL A. PORTER, Proprietor Livery Stables.

QUITMAN, GEORGIA.

For the benefit of all those who are interested in raising fowls, I take pleasure in recommending Shoenfeld's Medicated Stock Feed. I had several chickens with cholera, and by the use of this wonderful article, given accurding to directions, all of them got well and are now in a healthy condition.

WM. TENNILLE.

I fully concur in the above. indition.

EUFAULA, ALABAMA.

I used one sack of your Stock Feed on my cow, with very satisfactory results. She had recently dropped her calf, and was in a poor condition, and by the use of your Stock Feed she was rapidly improved in flesh and milk. Very respectfully,

GEO. H. DENT.

We have given Shoenfeld's Stock Feed our horses, and find that it is all you aim for it. Yours truly, CHAPMAN & DAVIS, Proprietors Livery and Sale Stables Third Street, Macon,

SELMA, ALABAMA.

I take pleasure in stating that I have used your Medicated Stock Feed on a very poor cow, with great success. She looks much better now, gives a great deal more milk and is much superior. I therefore, recommend this remedy to all who wish to improve their stock—cattle and horses, as it is truly what it is represented to be.

Very respectfully,

A. KAYSER.

ECFAULA, ALABAMA.

I take pleasure in stating that I have used your Medicated Stock Feed both on horses and cattle and with great success, especially on a very poor cow, which I bought at auction. She gives now over two gallons of milk, with a good prospect of increasing. Notwithstanding the prejudice I entertained for other powders that I had tried, and which proved worthless, I do not hesitate to indorse your invention as being all you claim for it.

We have been manufacturing Schoen-feld's Improved Stock Feed for two years, and have never sold an article that has given better satisfaction. It is all that is claimed for it, and no owner of stock should be without it. Price, 25 cents for one pound
